SHEFFIELD BLADES

55

Sheffield Blades is a fourth generation Australian owned and operated family company. We are dedicated to the success of your business through superior quality, service and integrity. Sheffield Blades provides complete solutions in cutting tools through its extensive range of Sterling knives and blades, and in power tool accessories through its ever growing Alpha range.

About Sheffield

With over 40 years of experience we can assure the highest level of expertise. By means of extensive ongoing consultation with industry specialists and our valued clients, *we have developed a range of solutions* to more than satisfy the most demanding requirements. Improvements through innovation and implementation of efficiencies affected by

constantly upgrading systems and staff training will continue to drive us forward.

Backed by a large and ever expanding stock level in our centrally located warehouse, our highly trained warehouse team, in conjunction with an extremely efficient distribution network, ensure an awesome level of service to clients throughout Australia.

Our *exclusive* brands **Sterling** and **Alpha** are sold by industrial distributors in Australia, and with over 2,000 outlets throughout the country there is a stockist near to you.

Customer satisfaction is our top priority.

When you contact our Sales or Service Team you will speak with *trained and dedicated staff members* that genuinely care about providing you with the product or service that is best for you.

“ **Sheffield Blades** provides complete solutions in cutting tools through its extensive range of Sterling knives and blades, and in power tool accessories through its ever growing Alpha range.

”

Service

SHEFFIELD BLADES

Sheffield Blades Head Office and Warehouse, located in Newcastle, is excellently situated to provide overnight service for orders to all major cities on the Eastern seaboard of Australia.

Overnight service to all other areas is available on request.

Orders placed before 2pm EST are normally dispatched the same day with a virtually 100% guaranteed accuracy level. By use of our *electronic dispatch system* the quickest method of delivery for that specific consignment is selected. For your peace of mind a *confirmation of dispatch* is sent to you by *email* providing you with full tracking capability for your consignment.

The team at Sheffield Blades strive to exceed expectations in offering helpful service and advice to businesses throughout Australia along with practical solutions to solve any problems.

SLIDELOCK TROWELS

Sterling

"Knock it in - knock it out"

SLIDELOCK TROWELS

BRILLIANT!

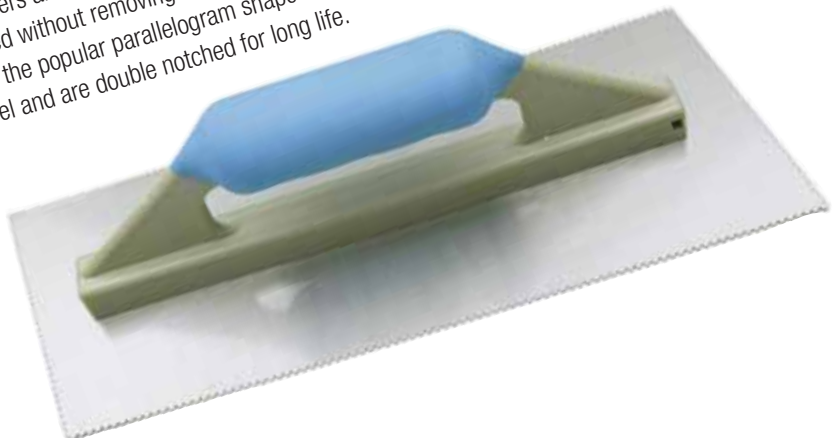

Fast and easy blade changes. Handle attaches to the blade by sliding it along a full length spine which provides a strong secure handle attachment to the blade. The SLIDELOCK system allows the same handle to be used with different notch size blades.

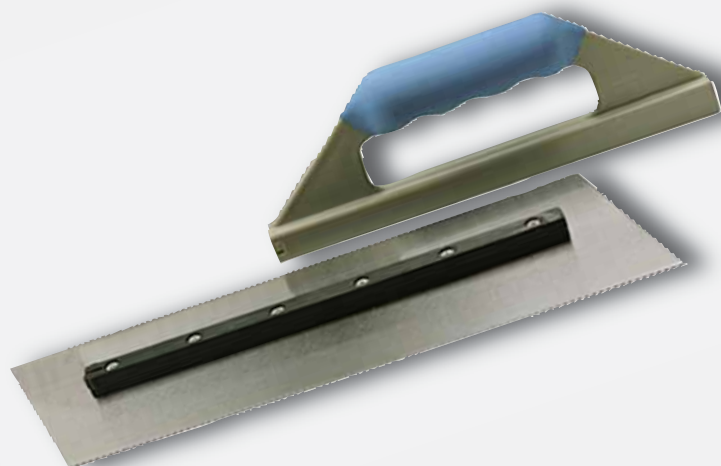

CHOICE!

SLIDELOCK Trowel System features either a large or small ergonomic soft grip handle fully interchangeable with 8 different blade styles. This provides the most universal trowel selection available for the flooring market.

DURABLE!

Centrally located handle is easier for left handed users and reduces uneven wear on the blade notching. Both sides of the blade can be used without removing the handle. Simply turn it around. All SLIDELOCK notched blades are the popular parallelogram shape and are manufactured from heavy gauge high quality steel and are double notched for long life.

Slide Lock Trowel Blades

Sterling

CODE	DESCRIPTION	BOX QTY	CTN QTY
17-ST	Straight	25	100
17-VN1	1.6mm V Notch	25	100
17-VN2	2.4mm V Notch	25	100
17-VN3	3.2mm V Notch	25	100

A dramatic silhouette of a group of people standing on the edge of a dark, craggy cliff. The scene is set against a bright, hazy orange and yellow sky, suggesting a sunset or sunrise. The people are positioned along the top edge of the cliff, with one person on the far right standing with arms outstretched. The cliff face is dark and textured, contrasting sharply with the bright sky.

You've got the edge

The **Sterling 50001 Art Knife** is a versatile knife with a **screw down locking chuck** which eliminates blade movement. **A useful knife for a range of graphic applications.**

A close-up photograph of an elephant's head, focusing on its trunk and eye. The elephant's skin is heavily wrinkled and textured. A piece of dark, textured tape is wrapped around the trunk, extending from the bottom left towards the center. The text "Size it up!" is written vertically in a white, sans-serif font along the left side of the image.

Size it up!

Endurance taken to the limit! Sterling's **Enduro tape** is manufactured from **stainless steel components**, with a **high wear, water resistant nylon coating** on a strong **stainless steel blade**, complete with a **three rivet end hook**.

All tapes are manufactured to ISO Accredited Standards.
